SUMMARY

B.Tech CSE graduate specializing in full-stack and AI-powered application development. Built projects involving NLP, vector search, and real-time data systems using Python, React.js, FastAPI, and Java. Experienced in integrating machine learning models into functional web applications. Seeking a software developer role to apply and grow these skills in a production environment.

PROJECTS

Headliner - Python, Flask, React.js, Hugging Face Transformers *(Major Project)* [GitHub](#)

- Built an AI summarization tool using a hybrid T5-small and BERT pipeline for title generation and semantic validation.
- Designed a local inference system using Hugging Face Transformers, eliminating dependency on external APIs.
- Integrated React.js frontend with Flask backend for end-to-end full-stack functionality.

Codebase Search & Explainer - React.js, Python, FastAPI, ChromaDB [GitHub](#)

- Built a full-stack AI tool that lets developers search large codebases using plain English queries.
- Implemented vector-based semantic search using ChromaDB, enabling context-aware results across multi-language codebases.
- Delivered syntax-highlighted code previews with natural language explanations via GROQ integration.

DevBoard - AI Task Manager - React.js, Node.js, Express.js, MongoDB [GitHub](#) [Live](#)

- Built a full-stack MERN Kanban board with JWT authentication and role-based task management.
- Integrated Groq API (Llama 3.3) to auto-generate actionable subtasks from task descriptions.
- Implemented real-time progress tracking, priority badges, and dashboard analytics across three task states.

EDUCATION

2021 - 2025 B.Tech - CSE at **BBDITM**
2020 Class 12th CBSE at **Central Academy**
2018 Class 10th CBSE at **Central Academy**

SKILLS

Languages	Java, JavaScript, Python
Frontend	React.js, HTML, CSS, Figma
Backend	Node.js, Express.js, FastAPI, Flask
Databases	MongoDB, MySQL, SQLite
AI/ML	Hugging Face Transformers, BERT, T5, ChromaDB, GROQ
Tools	Git, GitHub, JDBC, XML
Productivity	MS Excel, MS Word

CERTIFICATIONS

2021 - 2025 **MERN Stack Development** — ShapeMySkills by Ducat
2022 **Android App Development** — Internshala Training
